Countdown ODA Plus Dataset – Data Dictionary

Small dataset

Fields are as in the full dataset, except:

1. CH_Exp, MNH_Exp and RH_Exp are aggregated by the year, donor, recipient, purpose and channel fields.
2. Count_of_records is an additional field specifying how many records are aggregated into that combination of year, donor, recipient, purpose and channel.

Full dataset

Column position	Field name	Description	Data type
Fields added in the Countdown analysis			
1	ID	Unique record identifier	Exact numeric
82	CD_status	1 = recipient country is among the 75 priority recipients in the Countdown to 2015 classification; 0 = non-priority recipient country	Exact numeric
83	RMNCH_code	RMNCH code detailing which area of RMNCH the disbursement benefits	Exact numeric
84	Allocation_factor	Allocation factor: estimated proportion of disbursement benefitting RMNCH	Approximate numeric
85	CH_Exp	Disbursement supporting child health, constant 2013 USD	Approximate numeric
86	MNH_Exp	Disbursement supporting maternal and newborn health, constant 2013 USD	Approximate numeric
87	RH_Exp	Disbursement supporting reproductive and sexual or maternal and newborn health, constant 2013 USD	Approximate numeric
88	disb_const_2013	Disbursement in constant 2013 USD	Approximate numeric
89	PNH_research	Among records that contain a key term for prenatal and neonatal health, categorises that record as supporting either research or non-research activities; misclassified = record wholly unrelated to newborn health; zero = disbursement value is zero	String (255 characters max)
90	PNH_ex_in	Among records that contain a key term for prenatal and neonatal health, categorises that record as either exclusively benefitting PNH, or also benefiting other population groups, such as mothers or children older than one month; misclassified = record wholly unrelated to newborn health; zero = disbursement value is zero	String (255 characters max)
91	Any_PNH_term	1 = contains any key term relating to prenatal and neonatal health; 0 = does not contain any such term	Exact numeric
92	MD5_hash	Contains a hash value over all columns in the set using the MD5 algorithm. Useful to check whether data correctly imported.	Exact numeric

2	Year	Year of disbursement	Exact numeric
3	donorcode	Donor, code	Exact numeric
4	donorname	Donor, name	String (255 characters max)
5	agencycode	Agency receiving funds, code	Exact numeric
6	agencyname	Agency receiving funds, name	String (255 characters max)
7	crsid	CRS identifier	String (255 characters max)
8	projectnumber	Project number	String (255 characters max)
9	initialreport	Initial report	Approximate numeric
10	recipientcode	Recipient country, code	Approximate numeric
11	recipientname	Recipient country, name	String (255 characters max)
12	regioncode	Recipient country region, code	Approximate numeric
13	regionname	Recipient country region, name	String (255 characters max)
14	incomegroupcode	Income group of recipient country, code	Approximate numeric
15	incomegroupname	Income group of recipient country, name	String (255 characters max)
16	flowcode	Type of flow (ODA, private grant, other official flow etc.), code	Approximate numeric
17	flowname	Type of flow, name	String (255 characters max)
18	bi_multi	Bilateral or multilateral funds	Approximate numeric
19	category	Category	Approximate numeric
20	finance_t	Finance type (grant, loan etc.)	Approximate numeric
21	aid_t	Aid type (budget support, project etc.)	String (255 characters max)
22	usd_commitment	Commitment value (current USD)	Approximate numeric
23	usd_disbursement	Disbursement value (current USD)	Approximate numeric
24	usd_received	USD received (current USD)	String (255 characters max)
25	usd_commitment_defl	Commitment value (constant USD)	Approximate numeric
26	usd_disbursement_defl	Disbursement value (constant USD)	Approximate numeric
27	usd_received_defl	USD received (constant USD)	String (255 characters max)
28	usd_adjustment	Adjustment value (current USD)	String (255 characters max)
29	usd_adjustment_defl	Adjustment value (constant USD)	String (255 characters max)
30	usd_amountuntied	Amount untied (current USD)	Approximate numeric
31	usd_amountpartialtied	Amount partially tied (current USD)	String (255 characters max)
32	usd_amounttied	Amount tied (current USD)	Approximate numeric
33	usd_amountuntied_defl	Amount untied (constant USD)	Approximate numeric
34	usd_amountpartialtied_defl	Amount partially tied (constant USD)	String (255 characters max)
35	usd_amounttied_defl	Amount tied (constant USD)	Approximate numeric
36	usd_IRTC	Investment related technical cooperation value (current USD)	String (255 characters max)
37	usd_expert_commitment	Export commitment value (current USD)	String (255 characters max)
38	usd_expert_extended	Value of export credit extended (current USD)	String (255 characters max)
39	usd_export_credit	Value of export credit (current USD)	Approximate numeric
40	currencycode	Currency code of donor	Approximate numeric
41	commitment_national	National commitment	Approximate numeric
42	disbursement_national	National disbursement	Approximate numeric
43	shortdescription	Short description of project	String (255 characters max)
44	projecttitle	Title of project	String (255 characters max)

45	purposecode	Purpose reported by donor, code	Approximate numeric
46	purposename	Purpose reported by donor, name	String (255 characters max)
47	sectorcode	Sector reported by donor, code	Approximate numeric
48	sectorname	Sector reported by donor, name	String (255 characters max)
49	channelcode	Channel of disbursement in recipient country, code	Approximate numeric
50	channelname	Channel of disbursement in recipient country, name	String (255 characters max)
51	channelreportedname	Channel of disbursement in recipient country, reported name	String (255 characters max)
52	geography	Reported targeted geographic area	String (255 characters max)
53	expectedstartdate	Expected start date of disbursement project	Date and time
54	completiondate	Expected completion date of disbursement project	Date and time
55	longdescription	Long description of project	String (4000 characters max)
56	gender	Policy objective marker: Gender equality	Approximate numeric
57	environment	Policy objective marker: Aid to environment	Approximate numeric
58	trade	Policy objective marker: Trade development	String (255 characters max)
59	pdgg	Policy objective marker: Participatory development/Good governance	Approximate numeric
60	FTC	Whether free-standing technical cooperation	String (255 characters max)
61	PBA	Whether programme-based approach	String (255 characters max)
62	investmentproject	Whether investment project	Approximate numeric
63	assocfinance	Whether record has associated financing	Approximate numeric
64	biodiversity	Rio marker: Biodiversity	String (255 characters max)
65	climateMitigation	Rio marker: Climate change - mitigation	String (255 characters max)
66	climateAdaptation	Rio marker: Climate change - adaptation	String (255 characters max)
67	desertification	Rio marker: Desertfication	String (255 characters max)
68	commitmentdate	Reported commitment date	Date and time
69	typerepayment	Repayment type	String (255 characters max)
70	numberrepayment	Number of repayments per year	String (255 characters max)
71	interest1	Interest rate	String (255 characters max)
72	interest2	Second interest rate	String (255 characters max)
73	repaydate1	First repayment date	String (255 characters max)
74	repaydate2	Last repayment date	String (255 characters max)
75	grantelement	Grant element	Approximate numeric
76	usd_interest	Interest amount in current USD	String (255 characters max)
77	usd_outstanding	Amount outstanding in current USD	String (255 characters max)
78	usd_arrears_principal	Arrears of principal (incuding usd_outstanding)	String (255 characters max)
79	usd_arrears_interest	Arrears of interest	String (255 characters max)
80	usd_future_DS_principal	Future debt service; first year principal	String (255 characters max)
81	usd_future_DS_interest	Future debt service; first year interest	String (255 characters max)
