Intervention or control arm? (please tick only 1) Intervention [] Control []
Have you received treatment for TB? Yes [] No []

I would like to now create a simple visual **timeline of your illness with you:**

Period 1: "This is the period from when you first felt unwell until you entered the trial (up to a maximum of 6 months). If you did not feel unwell before entering the trial, this is the period in the 3 months before you entered the trial"

Period 2: "This is a period only for people who were investigated for TB. It is the period from your enrolling in the trial until you were either started on TB treatment or until the decision was made that you did not have TB ." There is no period 2 if you were a. in the intervention arm of the study or b. if you were never investigated for TB.

Period 3: "If you have started TB treatment, Period 3 is the time from when you started TB treatment until to 6 months into the study (ie. now)". If you have not received TB treatment, this is the period from when you enrolled in the study until 6 months into the study, ie. now".

Period 1	Period 2	Period 3	
Start of symptoms/3 months before trial entry if no symptoms	Entry to trial	Start of ART +- TB treatment	Now

Period 1 start date (approx to mid/early/late month if patient knows)	201		
Period 2 start date (entry to trial)	/ /201		
Period 3 start date (start of TB meds or start of ART if TB not present)	/ /201		
Start date of taking TB meds	/ /201		
Start date of taking ART	/ /201		
Today's date (end of Period 3)	/ /201
