S2- Focus Group discussions

Known CDs	Signs and symptoms	Causes	Treatment options	Prevention
Rural males				
Epilepsy	Seizures, a crying bird triggers the yabwe, reduction in brightness, bent lips, lameness of some body parts,	Genetic, high fever "yabwe" (convulsions), witchcraft, going near an epileptic victim, when s/he farts and you smell that you also contract epilepsy, getting in contact with the foams from an epileptic person	Traditional but only cure it the one originating from convulsions. When one fails in fire, it will never be cured,	
Diabetes	Weight gain, swelling of the feet/joints, if one is fat, loses weight, body weakness, frequent urination, limited sweating, pricking sensations,	Taking sweet things, taking sweet fruits like sugar cane, pawpaws, don't know, not taking sugar during old age you get diabetes, taking too much sugar as one ages.	Western, herbal although have no test kits. Prayers combination of western and prayers/spiritual	Avoid eating sweet things, not eating sweet fruits, for low sugar levels eat sweet fruits. Physical exercises
Asthma. Only affects children but not adults	Cough, difficulty in breathing, chest pain, suffocation,	Untreated cough, dust and then there after becomes genetical/hereditary	Western only gives relief but not cure, traditional if you get it cures it.	

HIV	Hair loss, weight loss, herpes-	Unprotected sex,	Western,	faithfulness,
	zoster, boils,	use of unsterilised	traditional but	condom use,
		equipment, mother	first go the	
		to child	hospital and get	
		transmission	tested, spiritual	
Lung infection (COPD).	coughing	Riding without		
An infection around the		protective gear. The		
chest		lungs get holes due		
		to the wind,		
		cigarette smoking,		
		dust, too much cold		
Hypertension. When	The becomes weak, getting	Weight gain, eating	Western, herbal,	Avoiding
ones gets blood	tired quickly, can't go up hill	fats that narrow the	spiritual,	being upset,
pressure attack, people	easily, sweating a lot getting	blood vessels,		eating fatty
say one got a heart	attacks when upset,	worries, about		foods and
disease.		debts, bad eating		worrying,
		(eating beef for a lot		
		duration),		
Heart failure related to				
hypertension				
TB and asthma related	Productive cough, chest pain			
but could not tell the				
difference. TB is				
infectious while asthma				
is not				
Rural females				
HIV	Painful legs/joints, herp-zoster,	Unprotected sex,	Western,	condom use,
	weight loss, boils, diarrhea,	use of sterilized	traditional but	faithfulness,
	sores, natural skin loss, rashes,	equipment, mother	first test from	HIV only
	energy loss,	to child	western	thrives in
		transmission,	hospitals. Use of	

			traditional medicine follows thinking that one is bewitched. Use of traditional medicine happens before one gets to know what is suffering from	particular blood groups
Asthma linked to TB all attack the chest and cause coughing but TB has no cure	Suffocation in the morning and evennning, coughing	Genetical,	Traditional,	
Epilepsy	Seizures, foams, urinatiation during seizures,	Going behind an epileptic person during an epileptic attack, touching an epileptic person during an attack, witchcraft, fever that attacks the brain,	Western, herbal, spiritual, all the three,	
Hypertension/ Heart failure	Seizures, collapsing,	Worries, being upset,	Western, spiritual and medication	Nothing to do
COPD		Much alcohol, cigarette smoking,		
Diabetes	Frequent urination, athletes' feet, wound take long to heal	Taking sweet things,	Western, herbs,	Nothing

ТВ	Chest pain, cough			
Peri-urban males				
Pressure/ Heart failure. Related to each other same causes		Worries, so many thoughts, over working, eating a lot of fatty foods, having a lot of money when one buys a lot of fatty	Western, rarely use traditional medication, prayers but very hard	Exercises, reducing fatty foods' intake, worrying less, reducing body weight,
Asthma/COPD/lung disease		foods, Smoking (cigarettes, wind pipes), , coldness, riding on motor cycles without wearing proper gear, HO2 enters the lungs, taking alcohol, polluted environment,	Western, herbs, churches,	Proper dressing, sensitising people, reduce charcoal stove usage,
Diabetes	Genetic	Taking sweet fruits like mangoes, sugar canes, too much sugar, taking a lot of sugar as one is aging.	Western, herbs but take long to respond to treatment, spiritual because nothing God fails,	Taking a balanced diet, eating sour foods like red pepper, going for medical checkups,
HIV/AIDS Also still stigmatized.		Unprotected sex, unsterilized equipment, mother	Western, traditional but mainly before learning what	

		to child transmission,	one is suffering from. Spiritual (prayers and witchcraft) and all the above. Nothing fails God	
Epilepsy. Epileptic person working as a bodaboda .Stigmatized cos people don't want to come out and share. When an epileptic person falls in fire, he does not survive death	Comes like an evil spirits	Genetic, one is born with a "ekiwuka" in the head, helping an epileptic person during an attack before s/he regains consciousness. Genetic and bewitched belief, sharing meals with an epileptic person	Western presently but used to go to witch doctors, herbs and churches,	
Peri-urban females				
Pressure/heart failure	Seizures, dizziness, high palpitations, high heart rate, feet swelling, dizziness,	Cholesterol, stress, worries, thoughts, lack of exercises, being over shouted at, much dirt,	Western, herbal, spiritual and all the above	Medical checkups, avoiding fatty foods, increased green consumption,
HIV/AIDS	Sores, skin rash, herp-zoster, hair loss,	Unprotected sex with an infected person, accidents, use of unsterilized equipment, mother	Western, traditional and spiritual	

		to child		
		transmission,		
Epilepsy	Seizures, frothing, body	Chicken pecking	Western,	
	weakness,	baby one into the	traditional,	
		head, Witchcraft,		
		accidents, farting,		
		from an epileptic		
		person, HIV virus		
		causes, epilepsy,		
		fever like		
		meningitis, helping		
		epileptic individuals		
		during an attack,		
Asthma/lung	Coughing, suffocation, fever, ,	Coldness exposure,	Western, local,	
infection/TB/pneumonia		hereditary,	spiritual,	
		exposure to cold		
		weather, alcohol		
		taking, smoking		
Diabetes	Self-injection, unhearing	Too sweet things,	Western,	Not eating
	wounds, swelling feet, frequent	sugar over taking,	tradition and	sweet
	urination, blurred vision, body	eating sweet	spiritual and	potatoes,
	weakness, dizziness,	potatoes, bananas,	both	cassava,
		biscuits, cakes,		banana,
		sugary fruits eg		reduction on
		mangoes, sugar		the quantity
		cane, "dirty heart"		of the food
		meaning none use		consumed
		of cleansing		
		medication beyond		
		six months, over		
		eating		

Urban females				
Diabetes same as	Frequent urination, body aches,	Taking a lot of	Western, herbal,	Eating a lot
pressure,	paralysis, stomach ache, feels	sugar, fat foods,	sprayers,	of greens,
	thirsty all the time, joint aches,	eating raw salt,	collaboration	
	wounds take long to heal, body		between herbal	
	swellings,		and western,	
HIV	Red lips, hair loss, weight loss,	Tooth extraction,	Western	Condom use,
	diarrhea, loss of appetite,	unprotected sex,	treatment,	HIV testing,
	persistent fever sores, body	use of unsterilized	herbal,	reducing
	rashes, cough,	equipment,		sexual
				partners,
Pressure/heart failure	Paralysis, headache, hates being	Worries, a lot of fats	Western, herbal,	Not eating
	frightened, body swellings, over	occupying the		fried foods,
	sweating, loss of senses, swollen	heart, blocked		eating raw
	body parts, general body	blood vessels, over		bellies,
	weakness,	eating fried foods,		
Asthma/TB/lung	Difficulty in breathing, cough,	Skull diseases,	Western,	
infection/pneumonia/C	sneezing a lot,	smoking,		
OPD		hereditary,		
Epilepsy. Does not get	Seizures, foaming, dizziness,	Can contract it	Western, local	While n
cured when he falls in	startle,	when you smell an	and spiritual	treatment,
fire.		epileptic person'		the epileptic
		fart, Skip over his		patient is
		urine u also		kept out of
		contract epilepsy,		reach of
		hereditary, fever		people
		leading to		because
		convulsions,		when you are
		affecting the brain		close to him,
				you also

		contract the
		diseases
