INVITATION You are invited to take part in an anonymous survey looking at health and social care worker views on COVID-19 vaccination. You are eligible to participate in this survey if you work in the UK in a frontline health or social care worker role (i.e. a role where you have direct contact with patients, service users, or clients). As COVID-19 has hit minority ethnic groups hardest, we would particularly like to hear the views of health and social care workers from minority ethnic backgrounds.

ABOUT THIS SURVEY

This research has received ethical approval from the London School of Hygiene & Tropical Medicine Ethics committee (Ref: 22923). The survey will take around 10 minutes to complete. Your participation is completely voluntary and you do not need to answer all the questions if you do not wish to. The survey is anonymous; we will not ask for any information in the survey that could directly identify who you are. All data will be stored securely at the London School of Hygiene & Tropical Medicine.

Data from this survey will be made available in a public data repository for use by other researchers upon request. To access the data, researchers need to complete and submit a

request form for the study investigators to consider. No data will be collected or shared which will allow for the direct identification of participants.

AFTER THE SURVEY

At the end of the survey you will be given the opportunity to further voice your views regarding COVID-19 vaccination through a telephone or Zoom/Skype interview with one of the study investigators. If you decide you would like to take part in an interview, you will be asked to provide your contact details for us to get in touch with you. In this case, your contact details will not be linked to any of your survey answers.

For more information about this research please feel free to contact me (Sadie Bell) and I will be happy to answer your questions. You can reach me on: sadie.bell@lshtm.ac.uk. These contact details are also provided at the end of the survey.

Just here out of curiosity?

If you would like a copy of the questions we ask in this survey please email Sadie Bell on sadie.bell@lshtm.ac.uk.

Q3

Unfortunately, due to the inclusion criteria you are not eligible to take part in this survey

To take part in this survey you need to confirm that you:

1. Work in health or social care in the UK
2. Have read and understood the information on the first page of the survey and consent to participate in this study

If these criteria do apply to you then there is a chance that you selected the wrong option. If that is the case feel free to click the link and start again.

If you are not eligible to take part in this survey do you know someone that is?

If you know someone who may be eligible to take part, please send them the link to the survey. This will really help us make the results of this survey as meaningful as possible. Thank you!

Q46 Do you have anything further you would like to add about your views on COVID-19 vaccination for health or social care workers? (If yes, please use this text box)

End of Block: Block 3

Start of Block: Block 2

Q48 Thank you for completing this survey! The study that you have just participated in looks at health and social care workers views on COVID-19 vaccination. The results of this study will be communicated to Public Health England and may inform the communication and delivery of the COVID-19 vaccination programme to health and social care workers.

Follow up telephone or Zoom/Skype interview For this study we are planning to combine the results of this survey with the findings from a range of interviews with health and social care workers. If you would like to help us further and would be willing to participate in an approximately 30-45 mins long conversation on a similar topic as that covered in this survey please provide, your email address or mobile phone details in the boxes below. Alternatively you can contact me directly on: sadie.bell@lshtm.ac.uk. As a thank you for taking part in interviews, participants will receive a **£10 multi-store gift voucher**.

Q49 Additional details This study forms part of the research agenda of the National Institute for Health Research (NIHR) Health Protection Research Unit in Immunisation. Please contact Sadie Bell (sadie.bell@lshtm.ac.uk), Pauline Paterson (pauline.paterson@lshtm.ac.uk), or Sandra Mounier-Jack (sandra.mounier-jack@lshtm.ac.uk) for further information about the study. Help us make the results of this project as meaningful as possible Thank you for participating in this survey. If you have signed up for an interview, thank you and you will be hearing from one of our investigators shortly. In the meantime, however there is a good chance that you currently know other frontline health and social care workers. If you know of someone who may be eligible to take part in this survey, and think that they would like to participate, please do pass the word on about this study by sending them the link highlighted below directly. The more people that take this survey the more meaningful the results become so any help you can give would be very much appreciated! Thank you. The link to this study is: [URL]
