Introduction

Introduction

In November 2013, IDEAS worked with you (Bill & Melinda Gates Foundation MNH grantees) to collect information about your grant's dissemination activities, outputs and outcomes, and consider how these might contribute toward the foundation's MNH learning agenda. The initial report is available on the IDEAS website.

The Bill & Melinda Gates Foundation commissioned this study to understand the additional impacts of the grants they fund over and above the objectives and milestones achieved.

This year, we are conducting a follow up survey to capture your grant's dissemination activities, outputs and outcomes over the last 12 months. We are interested in grants that are still active and those that have finished, since outcomes often take time to be realised and may occur after a grant has closed.

We will synthesise the results and issue an updated report to the foundation. We will send the report directly to you and make it available on the IDEAS website.

The survey will take a maximum of 15 minutes – we are most appreciative of your time in completing it.

Shirine Voller & Agnes Becker

Dissemination activities & outputs

What dissemination activities and outputs has your grant produced/maintained since November 2013?

Please select all that apply, and give a brief description where applicable, e.g. number of e-newsletters, which national meetings attended, titles of reports and policy briefs.

Digital & online

- Website [\[- if selected, text box appears to add detail\]](#)
- E-newsletters [\[- if selected, text box appears to add detail\]](#)
- Social media [\[- if selected, text box appears to add detail\]](#)
- Film [\[- if selected, text box appears to add detail\]](#)
- Other [\[- if selected, text box appears to add detail\]](#)

Meetings & events convened or attended

- Technical advisory group for project [\[- if selected, text box appears to add detail\]](#)
- Other technical advisory groups [\[- if selected, text box appears to add detail\]](#)
- Regional meetings and events [\[- if selected, text box appears to add detail\]](#)
- National meetings and events [\[- if selected, text box appears to add detail\]](#)
- End of project dissemination meeting [\[- if selected, text box appears to add detail\]](#)
- International conferences and meetings [\[- if selected, text box appears to add detail\]](#)
- Other meetings and events convened or attended [\[- if selected, text box appears to add detail\]](#)
- No meetings and events

Printed

- Research reports and case studies [\[- if selected, text box appears to add detail\]](#)
- Policy briefs [\[- if selected, text box appears to add detail\]](#)

- Ⓒ Journal articles and working papers [- if selected, text box appears to add detail]
- Ⓒ Project brochure [- if selected, text box appears to add detail]
- Ⓒ Newsletters [- if selected, text box appears to add detail]
- Ⓒ Press and PR [- if selected, text box appears to add detail]
- Ⓒ Other [- if selected, text box appears to add detail]

Impact

The four categories of the Research Impact Framework¹ help to identify the outcomes and impacts of dissemination.

Example impacts

Research impacts

Policy impacts

Health service impacts

Societal impacts

New evaluation method developed; special issue of journal published based on grant findings.

National working group established by ministry of health to review maternal and newborn health policy, as a result of gap analysis and advocacy work by project staff. State government decides to equip all front line health workers with mobile phones because of positive results from pilot project. Through greater awareness of maternal and newborn health issues, community leaders play a more prominent role in promoting facility delivery and use of an emergency transport scheme increases.

1. Kuruvilla S et al Describing the impact of health research: a Research Impact Framework BMC Health Services Research 2006; 6; 134:1-4

Over the past 12 months, do you feel your grant has achieved any impacts as a result of dissemination work?

Yes

No

Q. Please describe up to six impacts achieved from your grant over the past 12 months, selecting the category that fits best.

Impact 1

Select the impact category **[drop down list of impacts]**

Research –related

Policy

Health and other services

Societal

Please describe this impact **[free text box]**

Impact 2, 3, 4, 5 & 6 as above. – screens 4-6
