Tuesday 7 July 2026

LSHTM Open Research Awards 2026

13:00– 14:00

LONDON
SCHOOL of
HYGIENE
& TROPICAL
MEDICINE

- Recognise LSHTM students and staff who are advancing health research through the use of open methods and practices.
- Open call for case studies ran for six weeks (April 13 - May 29, 2026)
- Case studies reflected a range of novel and innovative uses of open methods and practices to enhance health research
- Thanks to Award Panel members: David Leon, Caroline Relton, Aimilia Exarchakou, Anna Last, Michael Marks, Harriet Mpairwe, Bakary Njie, Anna Schultze, Gareth Knight

Maria Gargiulo

Guerra de cifras and cifras de guerra:
Essays on data quality and conflict mortality in Latin
America

Rahaf Abu Koura

Practising what the research preaches: Open research in
an evidence map of humanitarian mortality data

AMRgen

Kathryn Holt, Gwen Knight, Zoe Dyson,
Ebenezer Foster-Nyarko, & Kara Tsang

AMRgen: an R package for antimicrobial resistance genotype-
phenotype analysis

Epirecipes

Simon Frost, Sandra Montes-Olivas, Sam Abbott,
Sebastian Funk, Ashley Akbari, & Michael Gravenor

Composable disease modelling: an open toolkit in Julia
using Applied Category Theory

CAM-Sudan Study team

Maysoon Dahab, Catherine McGowan, Rahaf Abu-Koura,
Nada Abdelmagid, & Francesco Checchi

Making Invisible Deaths Count:
Open and Reproducible Mortality Estimation During Sudan's War

Syria Research Group

Mervat Alhaffar, Natasha Howard, Yazan Douedari
and colleagues

Democratising health research in conflict: participatory methods, open dissemination, and capacity-strengthening with the Syria Research Group

Chrissy h. Roberts

Methods as Outputs: An Open-First Approach to
Research Practice

Lifetime Achievement Award
for development and innovation of digital data collection
through the Open Data Kit (ODK) platform

Congratulations to LSHTM Award Winners!

Open Research Practices

Published 11/03/2026

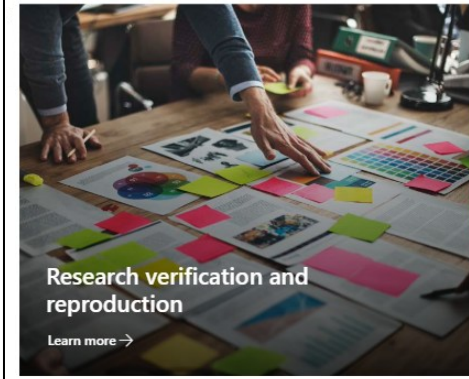

Open Science (also referred to as 'open research' and 'open scholarship') is a broad initiative that seeks to make research more transparent and accessible, enhance opportunities for collaboration and contribution to research, and simplify the process of validation and reuse of research outputs.

FOSTER Open Science offers a free introductory [course](#) that outlines the purpose of open research and how it may benefit your research.

The [Open Research calendar](#) lists upcoming events related to open research, open science and open scholarship.
