## ABOUT EVIDENCE AND IMPLEMENTATION

In the course of your work, you may need information or data to inform what you do, or how things are done.

The following questions explore how you make choices about the information or data you use in your current role and workplace(s).

7. Please can you provide some examples of the types of work situations that require you to make decisions related to the implementation of health interventions, policies, programs, or (medical/clinical) practice?

[OPEN TEXT] *\*Optional question*

8. How often do you use the following information sources help make decisions about **WHAT** to implement (e.g. interventions/policies/programmes intended to improve health)?

## ABOUT EVIDENCE AND IMPLEMENTATION À PROPOS DES DONNÉES PROBANTES ET LA MISE EN ŒUVRE

In the course of your work, you may need information or data to inform what you do, or how things are done.

Dans le cadre de votre travail, vous pouvez avoir besoin d'informations ou de données pour éclairer ce que vous faites ou la manière dont les choses sont faites.

The following questions explore how you make choices about the information or data you use in your current role and workplace(s).

Les questions suivantes explorent la manière dont vous faites des choix concernant les informations ou les données que vous utilisez dans votre rôle actuel et dans votre (vos) lieu(x) de travail.

7. Please can you provide some examples of the types of work situations that require you to make decisions related to the implementation of health interventions, policies, programs, or (medical/clinical) practice?

[OPEN TEXT] *\*Optional question*

Pouvez-vous donner quelques exemples de situations professionnelles dans lesquelles vous devez prendre des décisions relatives à la mise en œuvre d'interventions, de politiques, de programmes ou de pratiques (médicales/cliniques) dans le domaine de la santé ?

[TEXTE LIBRE] *\*Question facultative*

8. How often do you use the following information sources help make decisions about **WHAT** to implement (e.g. interventions/policies/programmes intended to improve health)?

*\*Mandatory question*

8. À quelle fréquence utilisez-vous les sources d'information suivantes pour vous aider à prendre des décisions sur **QUOI** mettre en œuvre (par exemple, des interventions/politiques/programmes destinés à améliorer la santé) ?

*\*Question obligatoire*

## ABOUT EVIDENCE AND IMPLEMENTATION

### Sobre evidência e implementação

In the course of your work, you may need information or data to inform what you do, or how things are done.

No decorrer do seu trabalho, você pode precisar de informações ou dados para informar o que você faz ou como as coisas são feitas.

The following questions explore how you make choices about the information or data you use in your current role and workplace(s).

As perguntas a seguir procuram explorar o que influencia suas decisões e escolhas sobre as informações que você usa para tomar decisões sobre a implementação em seu(s) local(is) de trabalho atual(is).

7. Please can you provide some examples of the types of work situations that require you to make decisions related to the implementation of health interventions, policies, programs, or (medical/clinical) practice?

[OPEN TEXT] *\*Optional question*

Por favor, fornecer alguns exemplos dos tipos de situações de trabalho que exigem que você tome decisões relacionado com a implementação de intervenções, políticas, programas ou práticas (médicas/clínicas) de saúde?

\*questão opcional

8. How often do you use the following information sources help make decisions about **WHAT** to implement (e.g. interventions/policies/programmes intended to improve health)?

*\*Mandatory question*

## ABOUT EVIDENCE AND IMPLEMENTATION

عن الأدلة والتنفيذ

In the course of your work, you may need information or data to inform what you do, or how things are done.

قد تحتاج في سياق عملك إلى معلومات أو بيانات لتحديد ما تقوم به أو كيفية القيام بالأشياء

The following questions explore how you make choices about the information or data you use in your current role and workplace(s).

تهدف الأسئلة التالية إلى استكشاف كيفية اختيارك للمعلومات أو البيانات التي تستخدمها في دورك الحالي ومكان عملك (أماكن عملك).

7. Please can you provide some examples of the types of work situations that require you to make decisions related to the implementation of health interventions, policies, programs, or (medical/clinical) practice?

*\*Optional question*

هل يمكنك تقديم بعض الأمثلة على مواقف في العمل تتطلب منك اتخاذ قرارات متعلقة بتنفيذ التدخلات الصحية أو السياسات أو البرامج أو الممارسة (الطبية/الإكلينيكية)؟

*\*سؤال اختياري*

8. How often do you use the following information sources help make decisions about **WHAT** to implement (e.g. interventions/policies/programmes intended to improve health)?

*\*Mandatory question*

ما مدى تكرار استخدامك لمصادر المعلومات التالية للمساعدة في اتخاذ قرارات بشأن ما يجب تنفيذه (مثل التدخلات/السياسات/البرامج التي تهدف إلى تحسين الصحة)؟

*\*سؤال إجباري*

## ABOUT EVIDENCE AND IMPLEMENTATION

साक्ष्य और कार्यान्वयन के बारे में

In the course of your work, you may need information or data to inform what you do, or how things are done.

आपके काम के दौरान, आप क्या करते हैं, काम कैसे किए जाते हैं यह बताने के लिए डेटा या जानकारी की आवश्यकता हो सकती है।

The following questions explore how you make choices about the information or data you use in your current role and workplace(s).

निम्नलिखित प्रश्न यह पता लगाते हैं कि आप अपनी वर्तमान भूमिका और कार्यस्थल में उपयोग की जाने वाली जानकारी या डेटा के बारे में कैसे चुनाव करते हैं।

7. Please can you provide some examples of the types of work situations that require you to make decisions related to the implementation of health interventions, policies, programs, or (medical/clinical) practice?

[OPEN TEXT] \*Optional question

7. कृपया क्या आप उन कार्य स्थितियों के कुछ उदाहरण प्रदान कर सकते हैं जिनके लिए आपको स्वास्थ्य हस्तक्षेपों, नीतियों, कार्यक्रमों, या (चिकित्सा/नैदानिक) अभ्यास के कार्यान्वयन से संबंधित निर्णय लेने की आवश्यकता होती है?

[आपका उत्तर] \*वैकल्पिक प्रश्न

8. How often do you use the following information sources help make decisions about **WHAT** to implement (e.g. interventions/policies/programmes intended to improve health)?
